

New Engine Oil Specifications for Opel Overview and Products

Dear Sirs,

We would like to give you an overview of the engine oils required for Opel vehicles.

General Information

With the introduction of the dexos1™ Gen 2 specification in 2017, the required product range for Opel vehicles was extended. Instead of using only one product (dexos2™) up to now, two different engine oils had to be used. With the acquisition of Opel by PSA, further specifications are now relevant which we would like to explain to you in more detail here:

Specification overview

Specifications	Application / Description	FUCHS Product
