Quality Sustainability Policy

FUCHS LUBRICANTS NORDIC is part of global group FUCHS PETROLUB, which produces lubricants and related specialties around the world. At FUCHS, our commitment is to focus on lubricants and offer sustainable and efficient solutions for all issues and fields of application in the world of lubricants. We claim technological leadership in strategically important fields of application and our customers acknowledge us as the number one technology partner. Our dedicated corporate culture, coupled with our loyal and motivated workforce, is the strategic key to our success.

We claim technological leadership through sustainability

Quality and our customer's trust is the foundation of our business. Directors, management and staff are responsible for quality control through our quality management system seeking improvement by constant review and risk analysis, with suppliers and sub-contractors being encouraged to co-operate. Our commitment in essence:

- We aim for technological leadership in our core business
- We believe that our future oriented products contribute to environmental sustainability
- We support our customers with knowledge and experience to achieve excellence in application of our products
- We act proactively on product safety and comply with legislation and requirements
- We engage approved suppliers who are able to show functioning management systems and provide us with required quality in product and services.
- Manufacturing commit to zero vision regarding causing harm to environment
- We pursue sustainability in our employment
- Risk awareness should permeate all decisions

Business plans and commitment above constitute objectives for FUCHS NORDIC to be specified as targets for each part of the organization.

Stockholm November 2017

Jonas Palm
Managing Director
