FUCHS LUBRICANTS

LOCAL UK MANUFACTURE & LOCAL SUPPLY

FUCHS is a global specialist in the world of lubricants – nothing moves without us! With over 3000 pack combinations, our extensive portfolio consists of high quality products that cover every aspect of lubrication, including synthetic energy saving technology and lubricants derived from renewable resources.

We develop new grades everyday, offering our customers superior performance and value for money from optimum products and unique lubrication solutions.

With such a large investment in your equipment and machinery, you need a production partner that you can rely on. And now you can benefit from lower operating costs, reduced downtime and improved efficiency with a premium range of products from your local FUCHS LUBRICANTS UK distributor.

Our product range includes:

- ✓ Corrosion Preventatives
- ✓ Gear Oils
- ✓ Greases
- ✓ Hydraulic Fluids
- ✓ ISO-Paraffin Cleaners
- ✓ Neat Metalworking Fluids
- ✓ Soluble Metalworking Fluids
- ✓ Plus... other specialist products

Please note:

- The products listed represent only a small selection of our whole range.*
- Product and Material Safety Data Sheets are available upon request.*
- A comprehensive consultation should precede any lubricant change, so that the optimal lubricant can be selected for the appropriate application.*
- Where advice is required on specific application details, please contact one of our lubrication specialists.*
