**FUCHS**

# LUBRICANTS. TECHNOLOGY. PEOPLE.

In close contact with its customers, FUCHS develops holistic, innovative and custom-made solutions for the most diverse applications.

As a lubricant manufacturer, FUCHS stands for performance and sustainability, for safety and reliability, for efficiency and cost savings.

FUCHS stands for a promise: technology that pays back.

---

## Facts and figures

**Company:** FUCHS LUBRICANTS (UK) plc, part of the FUCHS Group, based in Hanley, Stoke on Trent, England.

**Certifications:** ISO 9001, ISO/TS 16949, ISO 14001, ISO 50001, OHSAS 18001, AS 9100

---

FUCHS is a global Group with German roots that has developed, produced and sold lubricants and related specialties for more than 85 years – for virtually all areas of application and sectors. With 57 companies and 5,000 employees worldwide, the FUCHS Group is the leading independent supplier of lubricants.

Across the UK, a team of more than 300 specialists works to guarantee the satisfaction of our customers. Whatever their requirements, FUCHS has the ideal lubricant for their specific applications and processes. In our technology centre we link interdisciplinary expertise in a quick and efficient way – and work on innovative lubricant solutions to meet the demands of today and tomorrow every single day.

With over 30 years experience in the offshore industry our presence, expertise and product portfolio has continued to grow. Recent business acquisitions have helped to further strengthen our position within the North Sea and Nordic regions through improved technical support, logistics infrastructure and enhanced product offerings.

The above list shows our core range of offshore engine oils and is only a selection of the full, comprehensive range of engine oils offered by FUCHS.

FUCHS offers an extensive portfolio of OEM approved automotive engine and transmission oils.

## Stern Tube Lubricants

FUCHS offers rapidly biodegradable hydraulic oils and industrial gear oils based on saturated, synthetic esters for applications in the marine sector. The products deliver outstanding performance and fulfil the technological and ecological requirements of VGP (2013 Vessel General Permit legislation). Please ask about our PLANTO range for more

information on our environmentally acceptable and biodegradable oils.

A selection of our ranges have also been awarded the EU Ecolabel and can therefore be used for all applications in the marine sector in accordance with VGP.

### REFRIGERATION COMPRESSOR OILS

RENISO FUCHS offers a full range of RENISO refrigerant compressor oils, to suit every application.

## Cleaners

### Specifications

RENOCLEAN S08 RIG WASH	OCNS Gold Band (The highest environmental band achievable). Hazard Quotient 6.627E-02. Registered in Germany as an environmentally acceptable cleaning agent with the Umwelt Bundes Amt. Cefas Registration Number: 000000023122
EXICLEAN ALKA 310	HOCNOF approved

For all other product enquiries, please contact our UK based technical support team, Tel: +44 (0)1782 203 878.

## Support

### Logistics

Local supply with global support. The FUCHS Group comprises 57 operating companies in more than 40 countries, strategically placed around the globe to offer the most efficient support to all our offshore customers.

### CENT

The CENT condition monitoring service is a state-of-the-art production management tool that indicates the condition of the fluid and equipment by measuring wear trends, additive levels and sources of contamination, highlight problems before they occur.

A report is forwarded to the customer to enable the appropriate maintenance actions, thus reducing the possibility of unpredicted machine breakdown.

Anticipating the need for fluid change results in improved scheduled maintenance activities, reduced downtime and maximum return from lubricant expenditure.

- Clear and precise feedback
- Regular, accurate, detailed report
- Supported by experienced lubricant engineers

### FLUIDS LIVE

Fluids Live is an easy to navigate, web based, recording, tracking and reporting tool with integrated KPI measurements; to give maintenance and production engineers immediate and remote access to the current condition of fluids in use.

Fluids Live is an on-line platform, offering software free centralised management of data, resulting in no investment requirement from users.

Reporting data is broken down to the necessary levels, from company-wide to a specific machine, illustrating consumption against the point of application.

Fluids Live allows management teams to act accordingly based on the data produced.

- Standard weekly reporting
- Exceptions & consumption reporting
- Automated scheduling

## Innovative lubricants need experienced application engineers

Every lubricant change should be preceded by expert consultation on the application in question. Only then the best lubricant system can be selected. Experienced FUCHS engineers will be glad to advise on products for the application in question and also on our full range of lubricants.
