

# ECOCOOL 7978

## Water-Miscible Machining Fluid

### Continental Automotive

**Applications:** Threading, Turning, Drilling, Tapping, Reaming, Milling

**Substrate:** 6000 Series Aluminum

**Parts:** Electronic Brake Systems

**Systems:** Stand-alone and Central Recirculating

#### Previous Issues:

**Filterability**  
**Biological activity**  
**High carry-off**  
**Part residues**

#### Benefits after 8 months:

- Coolant usage reduction of 40%
- No significant bacteria or fungus
- 20% tool usage reduction
- Cost per gallon savings of 30%
- Increased system and part cleanliness
- No filter compatibility issues
- Increased sump life
- Significantly higher technical support
