JAGUAR - LAND ROVER Main Specifications

STJLR 03.5003 Specification for gasoline and diesel engines without particulate filter (based on ACEA A5/B5).

STJLR 03.5004 Specification for gasoline and diesel engines without particulate filter (based on ACEA A1/B1).

STJLR 03.5005 Specification for gasoline and diesel engines with particulate filter (based on ACEA C1).

STJLR 03.5007 Specification for diesel engines with particulate filter (based on ACEA C2).

Motor Oils Transmission Fluids Gear Oils

STJLR 03.5003 very fast oil circulation and outstanding performance reserves.

STJLR 03.5004 Ultra high performance, extreme fuel-economy motor oil specially developed for Ford EcoBoost gasoline engines. Optimum cold starting behavior and lower oil consumption.

STJLR 03.5005 Ultra high performance automatic transmission fluid designed for passenger car applications. Formulation is specially developed for 8L speed automatic transmissions. Product: Supersyn F ECO-DT.

STJLR 03.5007 Premium performance automatic transmission fluid for passenger car applications. Ongoing great performance efficiency, suitable also for life tests according to manufacturer.

STJLR 03.5008

- ACEA A1/B1 JAGUAR LAND ROVER STJLR.03.5004
- CHRYSLER MS 6395

- ACEA A1/B1 JAGUAR LAND ROVER STJLR.03.5005
- JASO D 1

- ACEA C5 FORD WSS-M2C925-A

- ACEA C5 BMW LONGLIFE-14 FE

- SAE 0W-20

- SAE 5W-30

- SAE 0W-30

- JWS 3309/TYPE T-IV

- FORD MERCON

- DEXRON III

- DEXRON III (H)

- DEXRON VI

- DEXRON V

- JAGUAR 02JDE 26444

- LAND ROVER LR 023288

- AISIN WARNER/AW-1

- ZF S671 090 312

- FORD MERCON

- DEXRON III

- SAE 75W-140

- SAE 75W-80

- MAINTAIN coolants

- MAINTAIN FRICOFIN LL

- Ultra high performance power steering and central hydraulic oil for automotive applications. Product: Supersyn F ECO-AT.
